Dear exhibitors,

We are delighted to invite you to our INTERNATIONAL CAT SHOW which will take place on

**NOVEMBER 20<sup>th</sup> & 21<sup>st</sup>, 2021, at PALEXPO GENEVA within the framework of the “Automnales” fair**  
[www.automnales.ch](http://www.automnales.ch)

Each cat must have an international vaccination certificate stating that it is correctly vaccinated against **panleukopenia** (typhus) and **infectious rhinotracheitis** (coryza), and the vaccination may not date back to more than one year. **Rabies vaccination is compulsory for all cats who cross borders.** Kittens shown in litters must have received their first vaccinations against panleukopenia and coryza no later than **fifteen days before the show.** **It is advisable to have the cats vaccinated against feline leukaemia.** Litters must be at least **eight weeks old** and each litter must contain at least **3 kittens.** **It is forbidden to sell cats within the framework of the show.**

Please note: under the new animal protection laws, some breeds will unfortunately have to be banned (cats with atrophied paws, without a tail or with an atrophied tail etc.). For Persians, Exotic Shorthairs, British longhairs and shorthairs, rex and Sphynxes, American Burmese, cats other than blue-eyed or odd-eyed, you will have to fill in the certificate that you will find below. **We are not the originator of these laws but just dependent on them.**

## **PLEASE READ OUR SHOW RULES CAREFULLY.**

**This will be a show with double judgement but the same cats must be present on both days (as of 9 AM “at the latest” until 7 PM “at the earliest”) + cage contest, with a cinema theme. Jointly with HELVETICAT, there will be a TICA show, and you may register your cats there if you wish. As of this show, household pets will be able to compete for the title of “premier” in their own championships. 6 rings over the weekend.**
